

Primary Geography Learning Pack 3

Weeks 5-6

- This unit of work aims to combine exploring the features of a city with an emphasis upon road safety.
- Children learn best when they are engaged in play, when they are playing with things and exploring ideas that interest them. One of the best ways to teach young children about road safety is to make it part of their play.
- Imaginative play is one simple way to include road safety information and skills into your child's play.

Use the photocopied printable roads and road signs and set up your own streets and neighbourhood.
